I. Introduction

1. The General Assembly, in paragraph 1 of its resolution 64/22, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations. Member States that had no information were encouraged to submit nil returns.

2. By paragraphs 5 (b), (g) and (h) of its resolution 64/22, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional/subregional symposiums and training seminars to explain the purpose of the United Nations standardized reporting system of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposiums and training seminars.

3. On 5 February 2010, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2010. The replies received are reproduced in section III below. Additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

4. The Office for Disarmament Affairs organized, from extrabudgetary resources, a regional workshop on the theme "Transparency in armaments for the region of Latin America and the Caribbean" held in Lima, Peru, on 9 and 10 March 2010, and another on "Transparency in Armaments for Southeast Asian States" held in Bali, Indonesia, on 31 March and 1 April 2010. The programme included one session devoted to the United Nations Standardized Instrument for Reporting Military Expenditures and aimed at enhancing familiarity with and encouraging greater participation of participating States in the Instrument.

5. In the coming years, the Office for Disarmament Affairs will focus on the development of interactive web-based training tools for the Instrument, provided that extrabudgetary funds become available for that purpose.

III. Replies received from Governments

Explanatory note

6. To date, the Secretary-General has received reports from 48 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the United Nations Standardized Instrument for Reporting Military Expenditures. A number of States provided additional information on their military budget for 2009 and on defence planning to explain military expenditures. This additional information is available at the Office for Disarmament Affairs.

7. The originals of the replies from States are available through the Office for Disarmament Affairs. The annual reports and other relevant information on the Standardized Instrument for Reporting Military Expenditures are available electronically on the Office website at www.un.org/disarmament/convarms/Milex/html/MilexIndex.shtml.
